E-CYCLING

Wisconsin law prevents household and schools from disposing of many electronic items. Beginning September 1, 2010 these items must be recycled by a registered recycler.

Recycling your electronics is important because they contain valuable materials that can be recycled and reused, including plastics, steel, glass and precious metals like gold and copper.

Many devices also contain dangerous materials such as lead, mercury, cadmium and chemical flame retardants. If disposed of improperly, these materials can leach into the environment where they may affect human and environmental health.

- All Computers – (Desktop and Laptop)
- Televisions
- Printers
